

**JON PORTER** is the course chair and has over 30 years of technical training experience designing, building, and delivering technical training in several different media formats for stand-up, group-lock step, and self-paced programs with an emphasis on adult learning. He served as a senior instructor/process specialist for Fosber America for the last 15 years. His responsibilities included safety, training for machine installations, documentation and conducting both field and factory schools on corrugator equipment and process. Process examples include corrugator 101, bonding, warp TS, operator quality tests, and process controls. Jon is a TAPPI member, serves on the standards committee, and is currently working on the committee to update the Defect Remedy Manual. Jon can be reached by email at [porterj@centurytel.net](mailto:porterj@centurytel.net).
